MATH

Students at the primary & elementary grade levels are tested to determine reading levels. Frank Knight uses the Developmental Reading Assessment (DRA) and Cady Stanton uses the Qualitative Reading Inventory (QRI). Both programs are used to determine instructional reading levels (accuracy and comprehension).

COUNSELING NUMBERS

Counseling Services in the SFCSD are provided by the School Psychologists, School Counselors, Social Workers and county service providers. Below are the number of students who are receiving counseling on a regular basis. These numbers change often based on student need and do not reflect crisis support counseling needs.

PROFESSIONAL DEVELOPMENT

After School Professional Development Sessions are determined through a Needs Assessment Survey completed by teachers K-12. Topics are determined by staff and presented by colleagues. This is a point of pride for the District and a model that we value to support instructional progression.
